Chairman's Message

Dear partners, At VANI Sanstha, our partners are at the centre of everything we do for holistic development of the society. As we celebrate our 35th Foundation Day this year, we want to extend our sincere gratitude to you for your constant support and trust in us to help our vulnerable communities from nation who came forward to protect their loved one's future and fulfill their dreams.

It is another great landmark for us, since the inception of VANI we continuously publish annual reports for our valuable partners. The 35th annual report of VANI is in your hands. It is a showcase of our journey of the year 2023.

Vani is working with the motto of socioeconomic development of the society as their collaborator and facilitator so that everyone of the society comes forward with nobility and lives an admirable and honorable lifestyle. Presently, Vani is working for Primary Education for underprivileged children specially girl child; Women Empowerment; Socio Economic Development; Water and Sensation, awareness on HIV/AIDS Issues, safe and continues water supply at door step, adolescent exploitation and Life Skill education, capacity building of school teachers.

Initially, the Vani started this community development journey from Purushottampura Village of Kotputli Block of Jaipur District in the year of 1989 with establishment of providing basic Primary Education to not school going children and dropped out students especially girls through the opening of Adarsh Bal Niketan School in this village. This school was opened by a group of social and spiritual thinkers and registration certificate of Rajasthan Society Act. 1958. Later on this group desired to extend and expiate this noble work and involve all groups of the society without inequity, injustice and imbalance.

Hence, in the year of 2004 Vani Sansthan was moved out to Jaipur to explore the possibilities of more fields of intervention for the betterment of deprived sections of society with clearly defining its vision and mission.

In the last 18 years Vani has established several milestones in the field of holistic development of society through implementation of social development activities and active and sustainable participation of community and community based organisation. You would be delighted presently our Sanstha is working in 10 districts of the Rajasthan State covering more than 100 blocks of the State.

Last but not least I would like to convey my sincere gratitude and thanks to all people from our project areas, personnel from governmental, nongovernmental and community based organisations without their active and continuous support VANI could not have reached this remarkable and honorable stage.

Message from Director's Desk

Ultimate aim of the VANI is that every person of the nation has own Voice with determination of self-reliance and self-confidence. So that people of the nation can be raised with own values and make them self-reliant in respect to desired ambitions and live an admirable lifestyle.

VANI is committed to his vision to access Primary Education, Basic Health Facilities, Women Empowerment, Life Skill Education, Adolescents Awareness & Exploitation, Health & Sanitation, Control of Communicable Diseases, and Children & Women Right to the most inaccessible and despicable societies. It is our valuable principal and core values towards societies of the nation.

VANI has also observed that sometimes people's lives are affected socially, economically, spiritually and mentally due to circumstances. Actually they are alarming sectors where without delay the need of measures and efforts are to be necessary actions are required for betterment of the society at earliest.

So, VANI has been working with peoples and communities with aims of development of society with respect to socially, economically, spiritually and mentally.

VANI has taken up welfare programmes, campaigns, activities and supportive measures for the improvement of the society without any delay with support of government and agencies.

It is very important to mention here that VANI is celebrating the 35th Foundation Day of the VANI and conducted the election of VANI's Executive Committee.

Let me first congratulate all of you on the occasion of VANI's 35th Foundation Day. This 35th year's journey could be completed by your remarkable and sustainable support to VANI.

I would like to extend my warm and wonderful gratitude and greetings to newly elected members of VANI's Executive Committee. I hope they all provide their collaboration in everything VANI does.

I also hope your constraint supports will continue to the betterment of the society and it will be accommodated to the communities in living happy and smoother lives as earlier. But still numbers of areas require support from us hence Vani will work for them consequently.

Last, but not least I convey my heartfelt gratitude and thanks to all villagers, stakeholders, personnel from government and non- governmental organisations, partners of financial support for their remarkable support. Without their support we could not accomplish the tasks undertaken for betterment of the community as well as the operational area. This is our 38th Annual Report in your hands. I would be happy with your comments and suggestions to improve our efforts towards social development of the society and institutions.

Dr. Sunil Sharma
Chief Executive Officer

1.0 Background

Mrs. Vimal Devi was founder member of the Vani Sanstha. She established VANI in the year of 1989 with the aim of holistic development of society and could be self-reliant and confident to wrestle off straggles of lifeline. This year Vani is celebrating its 35th foundation year. Since last 35 years the VANI has been established several millstones in the field of community development such as self help group management, school education and health, water and sanitation, medical and health, skill development of teachers and educationists, community based organisations, women and child development and entrepreneurship development of women and youths etc.

The VANI started its joinery with opening of a school namely Adarsh Bal Niketan at Purushottampura village in Kotputli block of Jaipur District, under the Society Registration Act, 1958, to provide education to children of socially weaker sections of society.

Same time the Vani also initiated some activities for children who were engaged as child labourers. For their upliftment, some livelihood activities were added so they could get not only school education and as well as reduced the burdens of their parents. Under this activity Vani has established Children Welfare Centre in school premises and provided not only basic primary education but also livelihood activities to them.

Initially, Vani was established with an administration office at 32, Durga Vihar, Opposite Ram Mandir, Tonk Road Jaipur in 1989. After working for 22 years from here Vani required immense space for institutional personnel and operational administrative and field activities hence the Vani has been shifted along with administration office at 126, Mahaveer Nagar Y, 80 feet Road, Sanganer, Jaipur-302029 in the year of 2010.

Vani operated several programmes and projects on Medical & Health Services (MHS), Reproductive Child Health (RCH) Mother Child Health and Nutrition (MCHN), Run Primary Health Centres (PHCs) and Urban Primary Health Centers (UPHCs) , Promotion of Enrolment of Primary Education specially Girl Child, Life Skill Education among Women and Adolescents, HIN/ AIDS Awareness and Protection Safe Drinking Water Supply at Door Steps, Established Educational Institute for drooped out and not going children at Purushottampura village in Kotputli block of Jaipur district, Protection Child Labour and Promotion of Child Welfare through Livelihood and Life Skill Education Activities and Promotion of WATSAN (water and sanitation) etc.

1.13.5 Target Intervention (TI) – Ajmer

HIV continues to be a major global public health issue. Links between sex work and HIV vulnerability have been recognized since the earliest days of the epidemic. Ajmer is one of the most famous tourist places in India. It is also a very famous religious place in Rajasthan. So through the year Ajmer city is full of tourists and has become a High Risk area for HIV/AIDS. Hence, the Government of Rajasthan has taken action to implement Targeted Interventions (TIs) aimed at offering prevention and care services to high risk populations within communities. Present research is an endeavor to grasp the different aspects indigenous to NGOs implementing TI projects. Since the implementation of the project the following achievements have been observed.
